COURSEWORK

UNDERGRADUATE

Object Oriented Programming

Computer Networks

Data Structures

R-DBMS

Web Development

Operating System

Fundamentals of C

SKILLS

PROGRAMMING

Languages:

- Advance :- Python
- Intermediate :- Java
- Novice :- C, Javascript

Tools:

- VS Code • Windows
- MySQL • XAMPP

Technologies:

- Advance :- HTML, CSS
- Intermediate :- SQL
- Novice :- Javascript, MongoDB

Framework:

- ReactJS • NodeJS

OTHERS

- Teaching
- Web Design
- Seminars

PROJECT

EASYNBA | HTML | CSS | JAVAScript | SQL | PHP | GROUP PROJECT

2022-2023 | Web Based Project

- This project is build basically for the faculties who does have to maintain records of students marks, their performances and also the subjects outcomes.
- Before the implementation of our project, faculties does have to do all the process manually. But through our project, we made things simple by automating it.
- EasyNBA project can be used in any Engineering college that is affiliated by NBA.

INTERNSHIP

SIRINTEL | INTERN

2022 | Davanagere

During this internship, We as a team worked on Python programming language from basic to advance concepts. We're also able to build a mini-project on python.

ACHIEVEMENTS

- **Certified by NPTEL** for successfully completing the course on **DATABASE MANAGEMENT SYSTEM** conducted by IIT KHARAGPUR
- **Certified by NPTEL** for successfully completing the course on **The joy of computing with python** conducted by IIT KHARAGPUR.
- Secured first place in **Layout Designing** activity held in 6th Semester

OTHER ACTIVITIES AND ACHIEVEMENTS

- Served as a **Coding club Master** in final year of engineering where I led a club of more than 40 plus members and **conducted several activities** like Web designing in 10 minutes etc...
- Secured 2nd place in an activity called **Tower Of Hanoi** conduct in my third year of engineering
- Conducted several number of interactive seminars on technical concepts like **DBMS, HTML and CSS, Python** and case studies on start up's like **OYO, Swiggy** etc...
